Instructions for providing the required cadet physical and immunization forms.

All incoming residential students (cadets) for the Milledgeville campus are **required to provide proof of medical readiness** prior to their enrolling into GMC as a member of the Corps of Cadets. This is required due to the strenuous nature of the activities the members of the Corps of Cadets participate in, to include daily physical training, Army ROTC training and other cadet physical activities. If you have any questions about this information, contact the **GMC Student Health Services Clinic at 478-387-4839**.

Physical Documentation

The various cadet programs at GMC have different requirements for documenting a cadet's physical readiness. Depending on the cadet program you are entering, you should submit the following documentation:

If you are a cadet participating in the *Early Commissioning Program (ECP)*, *State Service Scholarship Program* or the *Basic Cadet Program* and have a completed **Military Entrance Processing Station (MEPS) physical** that is less than two-years old, you should provide a complete copy of the following forms: **DD Form 2707-1**, (Report of Medical History) and **DD Form 2808** (Report of Medical Examination)..

If you are a cadet participating in the *Early Commissioning Program (ECP)* and have a **Department of Defense Medical Evaluation Review Board (DODMERB)** physical less than two years old, you should ensure that those forms have been submitted (**DD Form 2492** and **DD Form 2351-front and back pages**).

If you have been selected to participate in the **U.S. Coast Guard Academy Preparatory Program**, you should submit your **Department of Defense Medical Evaluation Review Board (DODMERB)**.

If you are a cadet participating the *Basic Cadet Program* and *do not have a military physical*, you must complete the **GMC Cadet History and Physical Examination Form**.

If you are a football cadet, you must have a **Pre-Participation Sports Medicine History & Physical** on file.

These are available on the website (gmc.edu) link: Current Student>Health Services>College Cadet Forms.

Immunization Forms:

All incoming cadets, regardless of the cadet program they are entering, must submit the following forms to GMC prior to their enrollment.

Certificate of Immunization Form: The form must be signed by a healthcare provider. If you have previous immunization records, you should have that information transcribed onto the Cadet Immunization Requirements Form by a healthcare provider.

Meningitis Vaccine Waiver Form: This form is to verify that the cadet has received a vaccination against meningococcal disease or has reviewed the information provided and declined to be vaccinated.

Tuberculosis Screening: The GMC Tuberculosis Screening Questionnaire must be completed and reviewed by Health Services to determine if further testing is needed.
