	-	Plot Ideas	
	-	Simple DBZ System	You can level up your character by training. You start off with average stats but you can level up your AGILITY, STRENGTH and DAMAGE by spending the day training (while making successful dice rolls). There is no cap to your stats so you can have over 9000 in STRENGTH.
			Roll 1d4 to see if you can hit or not. If it is odds, you miss, if it is even you hit. Then roll 1d6 for damage. For every level, you add another d6 to your roll. Having exploding dice to add more numbers to your

		<p>damage roll.</p> <p>Make the enemies either weak grunts or super OP.</p> <p>If you are playing original Dragon Ball, you have to run to your enemy. If you are playing Dragon Ball Z, you can just teleport to your enemy.</p>	<p>The world will be very exploration-based as you travel to different lands and fighting the bad guys there. Along the way you can train to be more powerful.</p> <p>When you find 7 dragon balls, you can make a wish that will alter the entire campaign and the GM will have to go with it (like bringing back a deceased character or fourth-wall breaking things).</p>

**Tri-Stat/Guardians of Order made a variety of BESM splatbooks for popular anime of the time including Trigun, Dominion: Dominion Tank Police, Slayers, Shōjo Kakumei (Revolutionary Girl) Utena, Demon City Shinjuku, Grave of Heaven: Uresia, and Tenchi Muyo! (a corebook and a supplement book).*

***Fandom wikis can prove to be very helpful free sourcebook guides to any franchise universe you are unfamiliar with. Most have locations, characters, items, plots, and more.*

****Often, if there's one system listed here, others related to the franchise were created as well.*

*****Links should all be working, but [The Wayback Machine](#) and [Removeddit](#) might be helpful if they don't in the future. At least a couple of RPG archive sites have been shut down recently.*

******I consider a tabletop game franchise a "popular franchise" if other companies or fans have made other games with it, too.*
